IMMULITE Immunoassay Systems

Global Test Menu

Improve laboratory testing with one of the largest automated immunoassay menus available, from routine and specialty tests and over 400 allergens.

IMMULITE 1000 Immunoassay System

The IMMULITE® 1000 system is a bench top immunoassay analyzer. The extensive menu, high level reliability, and ease of use makes this system the right choice for laboratories with low-volume immunoassay tests.

IMMULITE 2000/2000 XPi Immunoassay Systems

The highly reliable IMMULITE® 2000 XPi system is easy to use and has one of the largest automated immunoassay menus available. Medium- to high-volume laboratories can incorporate specialty and allergy testing into routine workloads to improve productivity and efficiency.
